FEATURES AND BENEFITS

DIAMOND DOTZ® is NOT “Diamond Painting”

DESIGN

Each DIAMOND DOTZ® design is meticulously interpreted by one of our champion designers.

We do not scan pictures through a pixilation program.

All images used on our packaging, on our websites and in our catalogues depict the finished dotted model and **not** a picture of the artwork.

That means that you know **exactly** what the end result will look like before you start.

Competing products often advertise original artwork that looks much better than the finished project – this is just false advertising!

Copyright – all our designs are either proprietary or licensed for use around the world. We do not copy or use unauthorized artwork.

Many competing “diamond painting” products use artwork which is in blatant breach of copyright.

SAFETY FIRST

Every component in our kits has been tested and independently certified as compliant according to US and EU regulations. That means our kits are made of only the best quality materials and are **safe to use**.

Nearly all “diamond painting” products being sold in the market today use materials which are not compliant to US and EU regulations.

QUALITY ASSURANCE

DIAMOND DOTZ® Facets – Our facets are made to our stringent specifications. Premium/luxury 2.8mm epoxy resin diamond facet made of first grade raw materials (not recycled).

Our unique facet has **13 different surfaces** that reflect light and create a more spectacular finished result.

Our Facet is unique and reflects light much more than competing products. We also use many feature/highlight facets which give the end result a completely different look.

SUBSTRATE — our working base is a heavy weight, high quality, 100% woven polyester fabric which is engineered to resist fold marks and is strong enough to carry the weight of facets without any problem. Even on the largest designs. Great for finishing and framing.

Competing products use a poor quality vinyl or synthetic multi-layer substrate that is inferior in both look and performance.

ADHESIVE — our adhesive is a proprietary, hi tech formula engineered by industry experts specifically for the DIAMOND DOTZ® activity. Our facets do not fall off and our adhesive makes dotting easy.

Competing products have problems with the adhesive and the poorly engineered substrate. Especially on larger designs, the adhesive cannot make a strong enough bond with the substrate and the beads may fall off over time.

PRINTING — we use a patented, high tech print technology which ensures our DIAMOND DOTZ® products are beautifully printed. Our printing is permanent, mar (scratch) resistant and fade resistant. All using non-toxic, eco-friendly inks.

Competing Products — Print is not permanent and is not waterproof, fades in sunlight and is easily scratched off the substrate.

AFTER SALES SUPPORT

NEEDLEART WORLD PROUDLY STANDS BEHIND ALL ITS PRODUCTS.

With craft kits, there are sometimes shortages or minor problems with the contents of the kit. Missing beads, maybe dry wax or something not clear about how to finish the project etc. Very often, the end user creates the problem without realizing it. So our philosophy has always been to make sure we supply any missing component and, in general, make sure that the end user has a good experience with our product.

So we send spare beads or components to customers whenever there is a problem. Competing companies are not as responsive and most don't even care or respond to consumer complaints. That leaves a frustrated end user who often cannot finish their project.

GENUINE DIAMOND DOTZ®

When shopping, always look for the DIAMOND DOTZ® Brand as a symbol of Quality & Safety.

CARACTÉRISTIQUES ET AVANTAGES

DIAMOND DOTZ® n'est PAS du 'Diamond Painting'

LE DESIGN

Chaque modèle DIAMOND DOTZ® est méticuleusement créé ou adapté par un de nos designers spécialisés.

Aucune de nos images n'est scannée via un programme de pixelisation.

Toutes les images utilisées sur nos emballages, sur nos sites internet et sur nos catalogues dépeignent le modèle réalisé avec les facettes et **non** une image de la création d'origine.

Ainsi, vous visualisez **exactement** quel sera le résultat final avant même de commencer votre ouvrage.

Des produits concurrents montrent souvent la création originale qui paraît beaucoup plus attractive que le projet réalisé – Il s'agit simplement de publicité mensongère !

Droits d'auteur – chacun de nos modèles nous appartient ou bénéficie d'une licence pour le monde entier. Nous n'effectuons pas de copies, et n'utilisons aucune création originale sans autorisation.

Beaucoup de produits concurrents du type "diamond painting" utilisent des créations sans respecter les droits d'auteur.

PRIORITE A LA SECURITE

Chaque composant de nos kits a été testé et certifié par une agence indépendante en accord avec les lois de l'Union Européenne et des Etats-Unis. Cela signifie que nos kits sont fabriqués avec les meilleurs matériaux, et qu'ils sont **parfaitement sûrs** pour nos utilisateurs.

Presque tous les produits 'diamond paintings' vendus aujourd'hui sur le marché utilisent des matériaux dont la composition ne respecte pas les lois des Etats-Unis ou de l'Union Européenne.

GARANTIE QUALITÉ

Les Facettes DIAMOND DOTZ® - Nos facettes sont produites en suivant nos exigences techniques: La facette Diamant est une résine epoxy premium de 2.8 mm issue de matière première non recyclées de première qualité.

Notre Facette, unique en son genre, est composée de **13 faces différentes** qui réfléchissent la lumière et créent ainsi un résultat final plus spectaculaire.

Notre Facette est unique et réfléchit beaucoup plus la lumière que les produits concurrents. Nous utilisons également beaucoup de facettes spéciales qui donnent un aspect totalement différent au résultat final.

NOTRE SUPPORT — Notre support de travail est une toile lourde 100% polyester qui est tissée pour éviter les traces de pliures et qui est suffisamment résistante pour supporter le poids des facettes sans

difficultés. Même pour les modèles les plus grands. Parfait pour les finitions et l'encadrement.

Les produits concurrents utilisent un vinyle ou un support multicouches qui est inférieur à la fois en apparence et en performance.

NOTRE ADHÉSIF — Notre adhésif a été mis au point par des experts spécifiquement pour l'activité DIAMOND DOTZ® selon une formule de haute-technologie.

Les produits concurrents rencontrent des difficultés dues à l'adhésif et au support de faibles qualités. Sur les modèles les plus grands, en particulier, l'adhésif n'est pas suffisamment collé au support et les strass peuvent se décoller avec le temps.

L'IMPRESSION — Nous utilisons une haute-technologie d'impression qui assure une impression magnifique à nos modèles DIAMOND DOTZ®. Notre impression est permanente, résistante aux égratignures et à la lumière. Tout en utilisant des encres éco-responsables et non toxiques.

Produits concurrents – L'impression n'est pas permanente, non résistante à l'eau, s'estompe à la lumière et s'efface facilement si on gratte le support.

SERVICE APRES-VENTE

NEEDLEART WORLD SOUTIENT FIÈREMENT TOUS SES PRODUITS.

Avec les kits de loisirs créatifs, il arrive parfois quelques problèmes avec le contenu, comme par exemple des strass manquants, parfois une cire un peu sèche ou parfois un manque d'explications pour mener à bien le projet, etc. Très souvent, l'utilisateur final crée un problème sans même s'en rendre compte. Notre philosophie a toujours été de nous assurer de fournir tout élément manquant et, en général, de faire en sorte que l'utilisateur final ait une expérience satisfaisante de notre produit.

Pour cela, nous envoyons des strass ou d'autres composants à nos clients, en cas de problème. Les sociétés concurrentes ne sont pas aussi réactives et la plupart ne s'en soucient pas et ne répondent jamais aux réclamations de leurs clients. Cela laisse l'utilisateur final dans un état de frustration et très souvent l'ouvrage n'est pas terminé...

L'AUTHENTIQUE DIAMOND DOTZ®

Lors de vos achats, recherchez toujours la marque DIAMOND DOTZ® - symbole de Qualité & de Sécurité.

Happy Dotting!!

FEATURES AND BENEFITS

DIAMOND DOTZ® is NIET “Diamond Painting”

ONTWERP

Elk DIAMOND DOTZ® design wordt zorgvuldig ontworpen door een van onze getalenteerde ontwerpers.

We scannen geen afbeeldingen via een pixel-programma.

Alle afbeeldingen die worden gebruikt op onze verpakking, websites en in onze catalogi geven het afgewerkte ‘gedotte’ model weer en niet een afbeelding van het kunstwerk. Dat betekent dat u precies weet hoe het eindresultaat eruit zal zien voordat u begint.

Concurrerende producten adverteren vaak met afbeeldingen van originele kunstwerken die er veel beter uitzien dan het voltooide project - dat is gewoon valse reclame!

Copyright - al onze ontwerpen zijn ons eigendom of wij hebben de licentierechten voor gebruik over de hele wereld.

We kopiëren of gebruiken geen afbeeldingen waar we de rechten niet van hebben.

Veel concurrerende “diamond painting” producenten gebruiken ontwerpen zonder daarvoor de licentierechten te bezitten.

VEILIGHEID EERST

Elk onderdeel in onze pakketten is getest en onafhankelijk gecertificeerd volgens de Amerikaanse en Europese regelgeving. Dat betekent dat onze pakketten zijn gemaakt van uitsluitend de beste kwaliteitsmaterialen en **veilig** zijn om **te gebruiken**.

Bijna alle “diamond painting” producten die heden worden verkocht, gebruiken materialen die niet voldoen aan deze Amerikaanse en Europese veiligheidsvoorschriften.

KWALITEITSWAARBORG

DIAMOND DOTZ® Facets – Our facets are made to our stringent specifications. Premium/luxury 2.8mm epoxy resin diamond facet made of first grade raw materials (not recycled).

Ons unieke steentje heeft 13 verschillende facetten die licht reflecteren en zorgen voor een spectaculair resultaat.

Ons steentje is uniek en reflecteert het licht veel meer dan concurrerende producten. We gebruiken ook veel highlight steentjes die het eindresultaat een compleet ander uiterlijk geven.

ONDERGROND — onze basis is een zwaar, 100% polyesterweefsel van hoge kwaliteit dat is ontworpen om vouwsporen te weerstaan en dat sterk genoeg is om het gewicht van de steentjes zonder enig probleem te dragen. Zelfs op de grootste ontwerpen.

Zeer geschikt voor afwerking en inlijsten.

Concurrerende producten gebruiken een ondergrond van vinyl of synthetisch materiaal van slechte kwaliteit, dat zowel qua uiterlijk als uitvoering van inferieure kwaliteit is.

KLEEFSTOF — onze kleefstof is een gepatenteerde, hightech formule, ontwikkeld door experts uit de industrie, specifiek voor de DIAMOND DOTZ®. Onze steentjes vallen niet van de ondergrond af en onze lijm maakt het dotten eenvoudig.

Concurrerende producten hebben problemen met de lijm en de slecht ontworpen ondergrond. Vooral bij grotere ontwerpen kan de lijm niet sterk genoeg binden met de ondergrond en kunnen de steentjes er na verloop van tijd af vallen.

AFDRUKKEN — we gebruiken een gepatenteerde, hightech printtechnologie die ervoor zorgt dat onze DIAMOND DOTZ® producten prachtig worden afgedrukt. Ons drukwerk is permanent, krasbestendig en bestand tegen vervaging. Alle gebruikte inktten zijn niet-toxisch en milieuvriendelijk.

Concurrerende producten - Drukwerk is niet permanent en niet waterdicht, vervaagt in zonlicht en kan gemakkelijk van de ondergrond worden gekrast.

ONDERSTEUNING NA VERKOOP

NEEDLEART WORLD STAAT TROTS ACHTER DE KWALITEIT VAN AL ZIJN PRODUCTEN.

Bij hobbypakketten zijn er soms tekorten of kleine problemen met de inhoud van het pakket. Ontbrekende steentjes, misschien droge was of onduidelijkheid over hoe het project te voltooien enz. Soms creëert de eindgebruiker het probleem zelf zonder het te beseffen. Onze filosofie is altijd geweest om ervoor te zorgen dat we elk ontbrekend component naleveren en in het algemeen ervoor te zorgen dat de eindgebruiker een goede ervaring met ons product zal hebben. Dus we sturen reserve steentjes of onderdelen naar klanten wanneer er een probleem is. Concurrerende bedrijven zijn vaak niet zo responsief en de meesten geven niet eens om consumentenklachten. Dat laat een gefrustreerde eindgebruiker achter die vaak zijn project niet kan afmaken.
